“ Thanks to the support from their co-operatives and to the stable income provided by fair trade and organic markets, young farmers such as Lucas Gere Duarte can envision not only staying on their land, but also making a better life for their families.”

Cocoa Camino® is a line of premium, Fair Trade certified and certified organic chocolate, cocoa and sugar products, produced by La Siembra Co-operative. Cocoa Camino® was born of a dream to reconnect consumers with farmers in a sustainable manner by buying the best possible organic ingredients from producers at a fair price and providing consumers with the highest quality organic and Fair Trade products.
